

What is: Dementia?

It can be difficult to understand dementia and other neurodegenerative conditions when complex scientific vocabulary is used to describe them, but Conversations to Remember is here to break everything down into simpler, easier to understand terms.

Senior Spotlight: Harry

After overcoming numerous struggles in his life, Harry, a senior in the program, has made it his mission to “carry a message of hope” to hospitals, prisons, recovering addicts and even the student volunteers at Conversations to Remember.
